PETITION REQUESTING RESETTING OF MAILING DATE OF NOTIFICATION OF
MISSING REQUIREMENTS TO DECEMBER 1, 2006 AND WAIVER OF PETITION FEE
AND EXTENSION FEES

Commissioner:

This is a petition to the Commissioner to reset the mailing date for the Notification of Missing Requirements to December 1, 2006.

The reason for the petition is that I, the responsible attorney for this case, nor anyone else in our firm ever received the Notification of Missing Requirements (allegedly mailed August 2, 2006) until November 29, 2006, when a facsimile copy was sent and December 1, 2006, when a mailed copy was received.

The evidence of not having received the Notification of Missing Requirements until the facsimile and mailed copies were received on November 29 and December 1, 2006, are set forth in the accompanying declarations of Vickie D. Wall and Daniel G. Ferris.

Vickie D. Wall, legal secretary and my assistant, telephoned the PCT office on November 29, 2006 and spoke with a Peter Kim about erroneous charges on our deposit account for this case. During that telephone conference Mr. Kim informed Vickie Wall that a Notification of Missing Requirements was sent out by the U.S. Patent and Trademark Office on August 2, 2006. Subsequently, a Cathy Short of the USPTO faxed a copy of the Notification of Missing Requirements to Christie, Parker & Hale, and on December 1, 2006, a mailed copy was received by Christie, Parker & Hale. A copy of the mailed copy with the December 1, 2006, received date is attached to the Wall Declaration.

Petition for Extension of Time
Application No. 10/553,525

Vickie Wall then checked the file for the subject application and noted that a copy of the Notification of Missing Requirements had not been received or placed in the file prior to November 29, 2006.

As Daniel G. Ferris, the supervisor of the Christie, Parker & Hale docketing department, states in his declaration, he researched the docketing records of Christie, Parker & Hale for log entries for the subject application and did not find any indication of receipt of the Notification of Missing Requirements dated August 2, 2006 prior to receipt of the Notification of Missing Requirements on December 1, 2006.

Accordingly, it is requested that the Notification of Missing Requirements be reset with a mailed date of December 1, 2006, and that any extension fees and petition fees be waived.

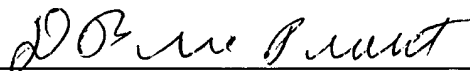

Also enclosed herewith is a full response to the Notification of Missing Requirements, including the following:

1. An English translation of the application as filed, (the processing fee for the English translation was submitted along with the filing of the application);
2. The executed Declaration of the inventor, properly executed in compliance with 37 C.F.R. 1.497(a) and (b);
3. A Supplemental Preliminary Amendment amending the title and claims for examination in this case;
4. A Small Entity Statement;
5. Copy of the Notification of Missing Requirements; and
6. A check in the amount of \$1,325.00 for payment of the additional claims and additional fee for specification and drawings filed in paper over 100 sheets.

In the event there are any fees required, the Commissioner is hereby authorized to charge any fees under 37 CFR 1.16 and 1.17 which may be required by this paper to Deposit Account No. 03-1728. Please show our docket number with any charge or credit to our Deposit Account. **A copy of this letter is enclosed.**

Respectfully submitted,

CHRISTIE, PARKER & HALE, LLP

Commissioner:

I, Vickie D. Wall, declare as follows:

1. I am a Legal Secretary to D. Bruce Prout, attorney of record in Christie, Parker & Hale for the subject application.
2. I was instructed to investigate erroneous charges to our deposit account for the subject application.
3. I immediately did so and on November 29, 2006 called the PCT office and spoke with Peter Kim who, during the course of our conversation regarding the charges to our deposit account, informed me that, in this application, there was a Notification of Missing Requirements sent out by the US Patent and Trademark Office on August 2, 2006.
4. I immediately checked the Christie, Parker & Hale docketing system and noted that the Missing Requirements had not been docketed. I then informed Peter Kim that we had not received the Notice of Missing Requirements and requested a copy. A copy was faxed to Christie, Parker & Hale by Cathy Short on November 29, 2006, and a mailed copy was received

on December 1, 2006. A copy of the Notification of Missing Requirements received December 1, 2006, is attached herewith noting the December 1, 2006 received date.

5. I have personally reviewed the file for the subject application and note that a copy of the August 2, 2006 Notification of Missing Requirements had not been received or placed in the file prior to November 29, 2006.

I declare under penalty of perjury that the foregoing is true and correct.

DECLARATION OF DANIEL G. FERRIS

Commissioner for Patents
P.O. Box 1450

Commissioner:

I, Daniel G. Ferris, declare as follows:

1. I am the Supervisor of the Docketing Department of Christie, Parker & Hale, LLP. I have been employed in this capacity for about the past 12 years.

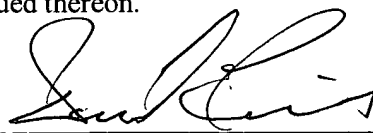

2. In the regular course of business in my department, my department docketed all U.S. Patent and Trademark Office mail, on a daily basis, received by Christie, Parker & Hale. I have reviewed our log for entries relating to U.S. this application, no. 10/553,525, and have confirmed that our office did not receive the Notification of Missing Requirements, dated August 2, 2006. Attached is a copy, from those records, of the weekly prosecution calendar between the dates of September 30, 2006 and October 15, 2006. As can be seen, no docket entry was ever entered for a Missing Requirements which would have a due date of October 2, 2006.

I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
